

Certificate of Achievement for Excellence in Financial Reporting Pension and Other Postemployment Benefit System & Cash and Investment Pools Checklist

This checklist is intended for annual comprehensive financial reports prepared by pension and other postemployment benefit systems (system) or by external cash and investment pools (pool). This checklist is available in electronic form at GFOA's website under the heading **Award Programs** in the **Certificate of Achievement for Excellence in Financial Reporting** section (<https://www.gfoa.org/coa-award>)

Entity Name

Fiscal Year End

The checklist is based on the authoritative guidance of the Governmental Accounting Standards Board (GASB) through GASB Statement No. 92, *Omnibus*. Even though the implementation dates of GASB Statements 83 through 93 have been delayed with the issuance of GASB Statement 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, this checklist includes guidance from the standards through GASB Statement 92. The checklist includes the disclosure guidance for leases following pre- and post-GASB Statement 87, *Leases*, and references to agency funds (questions shaded in green) for governments that have not implemented GASB Statement No. 84, *Fiduciary Activities*.

This particular checklist combines two different sets of elements:

- *Questions from the comprehensive general-purpose government checklist relevant to a system or pool.* One important reason that a separate checklist is needed is that many of the questions on the comprehensive general-purpose government checklist are not relevant to most systems and pools. Accordingly, this checklist includes only those items from the comprehensive general-purpose government checklist that are relevant to a postemployment benefit system or pool. For administrative purposes, the same numbering is retained in both checklists for identical items. Accordingly, breaks in the numerical sequence of the items presented in this checklist simply reflect the omission of items unlikely to be relevant to a system or pool.
- *Questions unique to a system or pool.* A second reason that a separate system checklist is needed is to provide additional questions to address unique aspects of a system's or pool's reporting (e.g., the investment section of a annual comprehensive financial report). These items are distinguished from those drawn from the comprehensive general-purpose government checklist by the presence of the letter "P" in the special unit column. Sections of the checklist that are only applicable to systems (e.g., the actuarial section) are identified as such directly under the heading for the section. Questions and comments that ask whether a "system (pool)" has met specific requirements are applicable to both types of entities. Also, questions that include a reference to the "system (pool)" are applicable to both types of entities. If a question or comment asks only about a "system," it is not applicable to a pool. Conversely, if a question or comment asks only about a "pool," it is not applicable to a system.

NOTE TO READERS: The checklist is a reference tool to help preparers find the information necessary to prepare a Annual Comprehensive Financial Report, not an exhaustive list of every aspect of such reports required by Generally Accepted Accounting Principles (GAAP). The checklist provides preparers references to where the detailed required disclosures can be found in the authoritative literature and in the 2020 version of GFOA's *Governmental Accounting, Auditing and Financial Reporting* ("Blue Book" or "GAAFR"). For example, question 12-100-03 appears as follows:

Question No.	Checklist Question	Citations	GAAFR reference
12-100-03	12.3a Do the notes disclose the amounts of bank deposit balances exposed to custodial credit risk in one or more of the three categories (1) uncollateralized, (2) collateralized with securities held by the pledging financial institution, or (3) collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name?	GASB Cod. Sec. C20.107	GAAFR Chapter 30 - Assets-Exposure to custodial credit risk as of the reporting date

The GAAP requirement for this disclosure can be found in the GASB Codification Section C20, "Cash Deposits with Financial Institutions," paragraph .107. Information about the note disclosures for custodial credit risk can also be found in Chapter 30 of the GAAFR.

This checklist incorporates a new numbering system for checklist questions. The new numbering will help GFOA staff better identify common problem areas that are encountered during the reviews of approximately 4,400 annual comprehensive financial reports each year, which includes 175 pension and other postemployment benefit system cash and investment pool reports, to enable GFOA to target training and publications to best assist governments. The questions in this checklist also display the number for the same or similar question that had been used in the 2018 version of the checklist, where applicable, to assist with cross-referencing. (Note: This is the last version of the checklist that is expected to contain both sets of identifying numbers.)

Older versions of the checklist contained lengthy explanations to questions that defined the topic being addressed in the question. The new checklist has eliminated most explanations but, as described above, refers the preparer to the authoritative guidance where the explanations can be found.

This checklist no longer includes references to original GASB pronouncements, interpretations, technical bulletins, implementation guides, etc., GFOA has added references to the GASB Codification to the items in the checklist. In situations where a new pronouncement is issued or citation is not in the GASB Codification, a reference to original pronouncements is used. The codification includes the current GAAP language and nonauthoritative illustrations for each topic. For example, GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments* contained extensive exhibits illustrating virtually all parts of a Annual Comprehensive Financial Report.

While the reporting model has not changed significantly since GASB 34 was issued in June 1999, many standards have made changes which render the exhibits obsolete. These include changes to names of financial statements and elements thereof, such as deferred inflows and outflows, and net position (v. net assets). In GASB’s most recently issued Original Pronouncements Governmental Accounting and Financial Reporting Standards (2020-2021 edition), the original exhibits are shown with the outdated portions shaded for identification. The codification contains a completely revised and updated set of exhibits, and can be found in codification section 2200.902; and codification section 2200.701-.768 contains all current, relevant implementation guidance. The GASB publishes updated codifications each year. If your government does not subscribe to receive materials from GASB, you can download PDFs of each pronouncement and you can register for free online access to the GASB’s Governmental Accounting Research System, which includes the Codification (<https://gars.gasb.org/>).

This checklist is designed exclusively for systems comprising one or more pension (and other employee benefit) trust funds or custodial funds (agency funds for governments that have not implemented GASB Statement 84, *Fiduciary Activities*) (for when the pension or OPEB plans do not qualify as a trust) and for pools with one or more investment trust funds. Systems with more complicated fund structures should use the comprehensive general-purpose government checklist along with this checklist. The authoritative guidance contained in the GASB Codification distinguishes between pension and other postemployment benefits (OPEB) provided through qualifying trusts or equivalent arrangements and those that are not. To qualify as a pension or OPEB plan that is *administered through a trust or equivalent arrangement*, the arrangement should have the following characteristics:

- Contributions from employers and nonemployer contributing entities to the pension/OPEB plan and earnings on those contributions are irrevocable,
- Pension/OPEB plan assets are dedicated to providing benefits to plan members in accordance with benefit terms, and
- Pension/OPEB plan assets are legally protected from the creditors of employers, nonemployer contributing entities, and the plan administrator. If the plan is a defined benefit pension/OPEB plan, plan assets also are legally protected from creditors of the plan members.

Accordingly, for questions and comments relating to such pension or OPEB plans there is an indication of whether the guidance applies to a plan *administered through a trust or equivalent arrangement* or to one that is *not* administered in that manner.

This checklist includes questions that are applicable to systems and pools. If a system or pool has an item not covered in this checklist, the preparer should check if the item is covered in the comprehensive general-purpose government checklist. For example, if a system or pool has long-term liabilities, it should refer to the relevant questions in the comprehensive general-purpose government checklist. In the situation when the employees of a public employee retirement system (PERS) participate in the same pension or OPEB plan they are administering e.g. "PERS as an Employer," it will be necessary to use the general-purpose checklist to verify compliance with employer reporting guidelines. The comprehensive general-purpose government checklist is available for on GFOA’s website (<https://www.gfoa.org/coa-award>).

A single numbering system is used for both of the checklists; therefore, questions beginning with 6, 7, 8, and 9 can be found in the comprehensive general-purpose government checklist. Indentation is used to indicate that a given question is dependent upon a positive response to a preceding question.

An asterisk (*) designates specific items that of themselves normally would be sufficient to disqualify a report from being awarded the Certificate of Achievement for Excellence in Financial Reporting. However, other items, either individually or in the aggregate, also may prevent a government from receiving the award.

The Annual Comprehensive Financial Report will be graded on the following categories, when applicable to the government:

1. Cover, table of contents, and formatting
2. Introductory section
3. Report of the independent auditor
4. Management's discussion and analysis (MD&A)
5. Basic financial statements - preliminary considerations
6. Government-wide financial statements
7. Fund financial statements - general considerations
8. Governmental fund financial statements
9. Proprietary fund financial statements
10. Fiduciary fund financial statements
11. Summary of significant accounting policies (SSAP)
12. Note disclosures (other than the SSAP and pension/OPEB-related disclosures)
13. Note disclosures – Employer pension/OPEB plans
14. Required supplementary information (RSI)
15. Combining and individual fund information and other supplementary information
18. Statistical section
19. Other considerations

Note: Sections 6, 7, 8 and 9 can be found in the comprehensive general-purpose government checklist on GFOA's website (<https://www.gfoa.org/coa-award>).

			P		1-001-02-1	P1.1 If the system (pool) is a trust fund, internal investment pool, or component unit of another government, does the report cover indicate that fact (e.g., "a pension [or OPEB] trust fund of the City of X" or "an investment trust fund of the State of Y")?	Certificate Program requirement	GAAFR Chapter 33 - Cover and title page
					1-001-03	1.3 Does the report cover include the name of the state in which the system (pool) is located?	Certificate Program requirement	GAAFR Chapter 33 - Cover and title page
					1-001-04	1.4 Does the report cover clearly indicate that the report covers the entire fiscal period (e.g., "for the fiscal year ended") rather than one point in time (e.g., "as of"), using the month, day, and year sequence. (e.g., "fiscal year ended June 30, 202X")? Note: When comparative statements are presented, the fiscal periods indicated on the report cover and title page should be the same periods covered by the independent auditor's report.	Certificate Program requirement	GAAFR Chapter 33 - Cover and title page
					1-001-05	1.5 Is there a title page? If so: (1) Does the title page describe the document as a "annual comprehensive financial report"? (2) Does the title page clearly indicate that the report covers the entire fiscal period (e.g., "for the fiscal year ended") rather than one point in time (e.g., "as of"), using the month, day, and year sequence. (e.g., "fiscal year ended June 30, 202X")? Note: When comparative statements are presented, the fiscal periods indicated on the title page should be the same periods covered by the independent auditor's report. (3) Does the title page include the name of either the individual or the department responsible for preparing the report? (Names alone are sufficient.) Note: The name of the auditor should not be included on the cover nor the title page, as it implies responsibility for the contents of the report. (4) Does the title page include the name of the state within which the system (pool) is located?	Certificate Program requirement	GAAFR Chapter 33 - Cover and title page
			P		1-001-05-1	P1.2 If the system (pool) is a trust fund, an internal investment pool, or component unit of another government, does the title page indicate that fact (e.g., "a pension [or OPEB] trust fund of the City of X" or "an investment trust fund of the State of Y")?	Certificate Program requirement	GAAFR Chapter 33 - Cover and title page
				*	1-001-06	1.6* Is a table of contents included that encompasses the entire report?	GASB Cod. Sec. 2200.105a	GAAFR Chapter 33 - Introductory section
					1-001-06-1	1.6a Does the table of contents clearly segregate each of the five basic sections of the report (i.e., introductory section, financial section, investment section, actuarial section – systems only, and statistical section)?	GASB Cod. Sec. 2200.105a	GAAFR Chapter 33 - Introductory section
				*	1-001-06-2	1.6b* Does the table of contents present the introductory section and the financial section as the first and second sections, respectively, and the statistical section as the last of the required sections of the report? Explanation: It is Certificate Program policy that the introductory and financial sections be presented as the first and second sections and the statistical section be presented as the last of the required sections of the annual comprehensive financial report.	Certificate Program requirement	
					1-001-06-3	1.6c Does the table of contents clearly distinguish the basic financial statements (including the notes) from RSI and the other contents of the financial section?	GASB Cod. Sec. 2200.105a	GAAFR Chapter 33 - Introductory section
					1-001-06-4	1.6d Does it identify each statement and schedule by its full title?	GASB Cod. Sec. 2200.105a	GAAFR Chapter 33 - Introductory section
					1-001-06-5	1.6e Does it include a page number reference for each item? Explanation: All items on the table of contents should be accompanied by a page number. Exhibit numbers, while permitted, are not a substitute for page numbers.	GASB Cod. Sec. 2200.105a	GAAFR Chapter 33 - Introductory section
			P	*	1-001-06-6	P1.3* Does the annual comprehensive financial report contain only one introductory, financial, investment, actuarial (if applicable), and statistical section? Explanation: A system managing several different plans should refrain from reporting a series of separate, sequential reports. Likewise, a pool managing more than one cash and investment pool should refrain from reporting a series of separate, sequential reports.		GAAFR Chapter 36 - Other recommendations from the GFOA
					1-001-07	1.7 If a statement or schedule occupies more than a single pair of facing pages, does the statement or schedule alert readers to this fact by including the word "continued" on the first pair of facing pages, as well as on each subsequent pair of facing pages? (The final pair of facing pages can be blank or include "concluded")	Certificate Program requirement	
					1-001-08	1.8 Does each page have a page number? Numbering should be sequential throughout the entire annual comprehensive financial report.	Certificate Program requirement	
					1-001-09	1.9 Are text and numbers throughout the report easily readable?	Certificate Program requirement	
					1-001-10	1.10 Has the government refrained from reporting cents? All numbers should be rounded to at least the nearest dollar.	Certificate Program requirement	
					1-001-11	1.11 If numbers are rounded to the nearest thousand or million, is this fact clearly indicated? Note: This applies to all statements, schedules and numbers included in narrative sections throughout the annual comprehensive financial report.	Certificate Program requirement	
					1-001-12	Consider presenting the pages of an electronic annual comprehensive financial report in a consistent manner throughout the report (e.g., either portrait or landscape orientation). Explanation: The need to rotate certain page images can make using reports more difficult for readers of the annual comprehensive financial report.	Certificate Program requirement

					2-001-04-1	2.4a Is the transmittal letter presented on the letterhead stationery of the system (pool)?	Certificate Program requirement	GAAFR Chapter 33 - Introductory section-Letter of transmittal
					2-001-04-2	2.4b Is the transmittal letter dated on or after the date of the independent auditor's report?	Certificate Program requirement	GAAFR Chapter 33 - Introductory section-Letter of transmittal
					2-001-04-3	Is the transmittal letter addressed to the system members or pool participants, as well as others (e.g., the governing board)?	Certificate Program requirement	GAAFR Chapter 33 - Introductory section-Letter of transmittal
					2-001-04-4	2.4c Is the transmittal letter signed by at least the chief financial officer (either the one in place during the year or the one in place when the report was issued, if different)?	Certificate Program requirement	GAAFR Chapter 33 - Introductory section-Letter of transmittal
					2-001-04-5	2.4d Does the transmittal letter state that management is responsible for the contents of the report?	Certificate Program requirement	GAAFR Chapter 33 - Introductory section-Letter of transmittal
					2-001-04-6	Does the transmittal letter include a formal transmittal? Items to consider including: (1) Mention any legal requirements the annual comprehensive financial report is intended to fulfill, and acknowledge that management is responsible for the contents? (2) Address the results of the independent audit? (3) Discuss the government's internal controls, including their objectives and inherent limitations?	Certificate Program requirement	GAAFR Chapter 33 - Introductory section-Formal transmittal
					2-001-04-7	2.4e Does the transmittal letter include a profile of the system (pool)? Items that should be included are: (1) A discussion of the pool's history, (2) A discussion of the pool's participants, (3) The services provided by the pool, and (4) A description of the pool.	Certificate Program requirement	GAAFR Chapter 33 - Introductory section-Profile of the government
					2-001-04-11	2.4g Does it contain acknowledgements? If the system (pool) received the Certificate of Achievement for Excellence in Financial Reporting or some other award, the system (pool) may mention such awards in the letter of transmittal. Consider including: (1) Objective indicators of the quality of the system (pool)'s financial management (e.g., a GFOA Popular Annual Financial Reporting award). (2) Acknowledgement of the individuals involved in the preparation of the annual comprehensive financial report, or those who contributed to the quality of the system (pool)'s financial reporting or internal controls. 					2-001-04-12	2.4h Does the letter of transmittal direct readers to MD&A?		GAAFR Chapter 33 - Introductory section-Formal transmittal
					2-001-04-13	2.4i Has the system (pool) refrained from duplicating information relevant to a given topic presented in MD&A or in the notes to the financial statements by 1) briefly identifying the topic and explaining its potential interest to financial statement users in the letter of transmittal, 2) referring readers to the notes and MD&A for any information on the topic already provided there, and 3) limiting the discussion in the letter of transmittal to the more subjective aspects of a given topic?	GASB Cod. Sec. 2200.704-1	GAAFR Chapter 33 - Introductory section-Formal transmittal
			P		2-001-04-14	P2.3 Does the letter of transmittal discuss major initiatives involving investments, benefits, or administration?		GAAFR Chapter 33 - Introductory section-Formal transmittal
			P		2-001-04-15	P2.4 Does it discuss funding status and progress toward achieving funding goals?		GAAFR Chapter 33 - Introductory section-Formal transmittal
					2-001-04-16	Explanation: The discussion in the letter of transmittal ought to communicate the information in less technical terms than in the other sections of the annual comprehensive financial report.		GAAFR Chapter 33 - Introductory section-Letter of transmittal
			P		2-001-04-17	P2.5 Does it include financial information for investment activities that includes investment policies and strategies, safeguards on investments, and yield information? Explanation: The letter of transmittal for a pool should include 1) the pool's current and future goals and objectives, 2) a statement referring to the reliability of the pool's investment section, and 3) the basis used to present data in the pool's investment section.		GAAFR Chapter 33 - Introductory section-Formal transmittal

					5-001-07-1	5.7a Has the plan early implemented GASB Statement 84?		
					5-001-07-2	5.7b If early implementing, has the plan complied with the requirements of GASB S84? Explanation: GASB Statement 84, Fiduciary Activities, issued January 2017, establishes uniform criteria for classifying and reporting fiduciary activities. Included in the requirements, the standard eliminates use of the agency funds and in most cases these activities will now be accounted for in custodial funds. The standard will also require a Statement of Changes in Fiduciary Position for custodial funds. GASB Statement 84 requires that assets held by pension or OPEB plans administered through arrangements that do not meet the criteria to be pension or OPEB trusts, but do meet the criteria to be reported as fiduciary activities (generally those which would have been accounted for in agency funds prior to GASB Statement 84), will now be accounted for in a custodial fund. External investment pools that do not meet the criteria of a trust are specifically required by GASB Statement 84 to be classified as custodial funds. GASB Statement 84 is effective for periods beginning after 12/15/2019. If the plan chose to early implement GASB Statement 84, it must implement the entire standard. In this situation, check the box indicating early implementation and answer the compliance question based on this explanation and the standard itself. Questions related to agency fund treatment should also be marked N/A.

				P	*	P5.3* If the system administers more than one benefit plan, does it either (1) present a separate column for each plan administered in both of the basic financial statements or (2) present combining statements for those plans as part of the basic financial statements? 				P		P5.4 Has the system refrained from reporting healthcare benefits for retirees in the same fund as pension benefits? Explanation: Even if the participants make a single contribution to the plan and the plan's ability to provide healthcare benefits is conditioned on its ability to maintain sound funding of the pension benefits, the system should separately report the defined benefit pension plan and the OPEB plan. If a defined benefit pension plan administers a postemployment healthcare plan that is funded by "excess investment earnings" (investment earnings for a particular year in excess of the long-term investment earnings assumption used for actuarial valuation purposes), the system should report the arrangement described as two plans—a defined benefit pension plan and a postemployment healthcare (OPEB) plan. Accordingly, plan assets in excess of related liabilities are reported as liabilities to the employers rather than as net position of the plan, consistent with the fact that agency funds do not report equity (for entities that have not implemented GASB Statement No. 84). Such plans should also include abbreviated disclosures for the plan description, a summary of significant accounting policies, and contributions. Additionally, the plans should disclose that each participating employer must disclose information about its funding policy, annual pension/OPEB cost and contributions made, the funded status and funding progress of the employer's individual plan, and the actuarial methods and assumptions used.</p> <p>If the system is a participating employer in the plan, any of the assets contributed by the system, and the system's proportionate share of investment earnings thereon must be excluded from the custodial fund (agency fund for entities that have not implemented GASB Statement 84) and included as assets of the system.</p>	<p>GASB Cod. 					10-002-02	<p>10.7 Is the difference between [assets plus deferred outflows of resources] and [liabilities and deferred inflow of resources] reported as fiduciary net position?</p> <p>Explanation: GASB Concepts Statement No. 4 established deferred outflows of resources and deferred inflows of resources as financial statement elements. When present, the items related to each element are reported in a separate section on the statement of net position. Only items identified by the GASB in authoritative pronouncements can be reported in these categories. Normally, the items that the GASB has identified as appropriately reported in these categories are not present in a system (pool). Explanation: The method selected for disclosing interest rate risk should be the one most consistent with how the system (pool) manages that risk. Further, when the system (pool) has a position in some type of pooling arrangement for investment purposes, the disclosure of interest rate risk only applies when the position is in a debt investment pool, such as a bond mutual fund or external bond investment pool, which does not meet the requirements to be reported as a qualifying external investment pool that has elected to report its investments at amortized cost. The notes should disclose any assumptions used in the disclosure of interest rate risk (e.g., timing of cash flows, interest rate changes, or other factors that affect interest rate risk). The notes should disclose the terms of any debt investment that cause its fair value to be highly sensitive to interest rate changes (e.g., coupon multipliers, benchmark indices, reset dates, embedded options). NOTE DISCLOSURES - EMPLOYER PENSION/OPEB PLANS								
DEFINED BENEFIT PLANS - ADMINISTERED THROUGH A TRUST OR EQUIVALENT ARRANGEMENT								
ALL PLANS								
					13-650-00	Note for OPEB Plans: To qualify to use the alternative measurement approach, a single-employer defined benefit OPEB plan must have fewer than one hundred total plan members. In the case of an agent multiple-employer defined benefit OPEB plan an individual-employer government must have fewer than one hundred total plan members for its particular OPEB plan. In the agent multiple-employer OPEB plan report it is necessary to provide actuarial information for the plan as a whole. When some agent employer governments use the alternative measurement method, the agent multiple-employer OPEB plan can obtain the information it needs by aggregating the individual employer OPEB plan information regardless of whether it was determined by actuarial valuations or measurements using the alternative measurement method (provided the individual plan is eligible to use the alternative measurement method). If the agent multiple-employer OPEB plan obtains the overall plan information by aggregating information prepared by some individual-employer governments through an actuarial valuation and prepared by others using the alternative measurement method it must follow special rules. In such cases, the individual agent-employer government using the alternative measurement must provide information to the agent multiple-employer defined benefit OPEB plan as frequently as is required for that agent OPEB plan and as of the same actuarial valuation date used by that agent OPEB plan. While this method does not require the services of an actuary, it does include the same essential elements as those used in an actuarial valuation: • Projection of future benefits, • Calculation of the present value of future benefit payments, • Allocation of the present value of future benefit payments to operations in a systematic and rational manner. The essential difference between the alternative approach and an actuarial valuation is that the alternate approach allows financial statement preparers to use certain simplifying assumptions to project benefits. 			P		14-760-01	<p>P14.2 Is a 10-year schedule that presents the beginning and ending balances for each of the following items included: 1) the total pension/OPEB liability (TPL/TOPEBL), 2) the pension/OPEB plan's fiduciary net position (FNP), and 3) the net pension/OPEB liability (NPL/NOPEBL)? If so, does the schedule separately present the effect on those items from each of the following, (as applicable):</p> <p>(1) Service cost?</p> <p>(2) Interest on the TPL/TOPEBL?</p> <p>(3) Changes of benefit terms?</p> <p>(4) Differences between expected and actual experience in the measurement of the TPL/TOPEBL?</p> <p>(5) Changes of assumptions or other inputs?</p> <p>(6) Contributions from employers?</p> <p>(7) Contributions from nonemployer contributing entities?</p> <p>(8) Pension – Contributions from employees? OPEB – Contributions from active employees and inactive employees not yet receiving benefit payments?</p> <p>(9) Pension/OPEB plan net investment income?</p> <p>(10) Benefit payments, including refunds of plan member contributions?</p> <p>(11) Pension/OPEB plan administrative expense?</p> <p>(12) Other changes, separately identified if individually significant?</p> <p>Explanation: As a practical matter, the information for this schedule can be combined with the following schedule (see P14.14) to avoid duplication of the common elements, as would be the case, if each schedule was separately presented and included all data elements.</p>	<p>GASB Cod. 			P		14-760-03	<p>P14.23 A 10-year schedule that provides information about the actuarially determined contribution (ADC), regardless of whether that amount is funded, and identifies whether the information relates to the employers, nonemployer contributing entities, or both? If yes, does the schedule include:</p> <p>(1) The ADC?</p> <p>(2) For cost-sharing pension/OPEB plans, the contractually required contributions, if different from the ADC?</p> <p>(3) The amount of contributions recognized during the fiscal year by the plan in relation to the ADC?</p> <p>(4) The difference between the ADC and the amount of contributions recognized by the plan in relation to the ADC?</p> <p>(5) Pensions - the covered payroll? OPEB - the covered payroll, if contributions are based on a measure of pay?</p> <p>(6) Pensions - the amounts of contributions recognized by the plan in relation to the ADC as a percentage of covered payroll? OPEB - the amounts of contributions recognized by the plan in relation to the ADC as a percentage of covered payroll if contributions to the OPEB plan are based on a measure of pay?</p> <p>Explanation: For purposes of this schedule, each of the required individual items should exclude amounts, if any, to separately finance specific liabilities of an individual employer or nonemployer contributing entity to the pension or OPEB plan. Examples of separately financed liabilities to a plan include long-term receivables recognized for contractually deferred contributions with separate payment schedules, and cash receipts or long-term receivables for amounts assessed to an individual employer upon joining a multiple-employer plan or for increases in the TPL for changes of benefit terms specific to an employer in a multiple-employer plan.</p>	GASB Cod. 					14-760-04	<p>14.7 If the system reports one or more defined benefit pension or OPEB plans (regardless of the type of plan), that are administered through one or more trusts or equivalent arrangements, is a 10-year schedule included for each plan that presents for each fiscal year the annual money-weighted rate of return on plan investments?</p> <p>Explanation: The annual money-weighted rate of return on pension plan investments should be calculated using the internal rate of return on plan investments net of plan investment expense. Plan investment expense should be measured on the accrual basis of accounting. Inputs to the internal rate of return calculation should be determined at least monthly. The use of more frequently determined inputs is encouraged.</p>	GASB Cod. Sec. Pe5.128d, .129 GASB Cod. Sec. Po50.130d, .131	GAAFR Chapter 36 - Required Supplementary Information
			P		14-760-05	<p>P14.30 If schedules of required supplementary information are presented for a one or more pension/OPEB plans that are administered through one or more trusts or equivalent arrangements, are notes to the RSI included? If so are the following disclosures to the RSI included when applicable:</p> <p>(1) Factors that significantly affect trends in the reported amounts</p> <p>(2) Significant methods and assumptions used in calculating the ADC?</p> <p>Explanation: For example, changes of benefit terms, changes in the size or composition of the population covered by the benefit terms, or the use of different assumptions. The amounts presented for prior years should not be restated for the effects of such changes that occurred subsequent to the end of the fiscal year for which the information is reported.</p>	GASB Cod. 			P	*	17-780-01	P17.1* Does the annual comprehensive financial report contain an actuarial section?		GAAFR Chapter 36 - Actuarial section
			P		17-780-02	P17.2 If the system reports one or more defined benefit pension plans that are administered through one or more trusts or equivalent arrangements, does the information in the actuarial section for those plans focus on the actuarial valuation used for funding purposes? Explanation: Plans that fund benefits on a statutory basis, rather than on an actuarial basis, still often have an actuarially determined contribution (ADC) calculated to serve as a point of reference for evaluating the adequacy of the statutory contributions. Pension plans in that position also may wish to present this same information, even though contributions are not based on an ADC.		GAAFR Chapter 36 - Actuarial section
			P		17-780-03	P17.3 If the system reports one or more defined benefit pension plans that are administered through one or more trusts or equivalent arrangements, does the actuarial section include a discussion of plan provisions or reference such a discussion in the financial section if it is available there?

			P	*	17-780-04	P17.9* Does the actuarial section include a certification letter from the actuary or actuaries primarily responsible for the valuation? Explanation: Cost-sharing and single-employer pension plans that are administered through a trust or equivalent arrangement may also wish to include the letter for the actuarial valuation used for financial reporting purposes. That option sometimes would not be practical for agent plans, given the extremely individualized nature of each valuation.		GAAFR Chapter 36 - Actuarial section

			P		17-780-04-8	Explanation: If a cost-sharing or single employer pension plan that is administered through a trust or equivalent arrangement elects to include the letter for the actuarial valuation used for financial reporting purposes, that letter should expressly state that the assumptions and methods used for financial reporting purposes meet the parameters set by ASOPs and generally accepted accounting principles (GAAP) applicable in the United States of America as promulgated by the GASB or, if not, a description of how they depart from those parameters and principles. It also should include a list of supporting schedules, appearing in the financial section, which were prepared by the actuary.

			P		17-780-08	P17.54 Does the actuarial section include an analysis of financial experience? Single-employer and cost-sharing plans only. Explanation: An "analysis of financial experience" is a gain/loss analysis of changes in the actuarial accrued liability or unfunded actuarial accrued liability that considers variances between actual experience and assumed experience for different types of risk. An analysis of financial experience may not be practical for agent plans.		GAAFR Chapter 36 - Actuarial section
			P		17-780-09	P17.55 If the actuary who performed the valuation was a member of the plan's own staff, and an actuary who was not a member of the plan's staff conducted a review, does the actuarial section include a statement from the reviewing actuary?		GAAFR Chapter 36 - Actuarial section

			P		17-781-00	Note regarding the actuarial section: The nature and operations of OPEB plans vary greatly. Therefore, it is possible that some checklist questions may not be applicable to some plans. In such cases, the reasons for any missing and/or different actuarial disclosures and schedules should be readily apparent from the description of the plan in the notes to the basic financial statements and throughout the annual comprehensive financial report. 			P	*	17-781-01	P17.75* Does the annual comprehensive financial report contain an actuarial section?		GAAFR Chapter 36 - Actuarial section
			P		17-781-02	P17.76 Does the information in the actuarial section focus on the actuarial valuation used for funding purposes? OPEB plans that fund benefits on a statutory basis, rather than on an actuarial basis, still may have an actuarially determined contribution (ADC) calculated to serve as a point of reference for evaluating the adequacy of the statutory contributions. These plans may wish to present this information, even though contributions are not based on an ADC.		GAAFR Chapter 36 - Actuarial section

			P		17-781-05-1	P17.79a Does that summary indicate the source of, or basis for, participation assumptions, including acceptance or election rates (for retirees and dependents), lapse rates, or re-enrollment rates? Explanation: Unlike pensions where everyone will participate in the plan and receive the benefits upon retirement, OPEB may not have 100% participation by eligible retirees. For example, a retiree may join their spouse's healthcare plan because the spouse's plan offers better coverage or the spouse's plan does not cost as much as the employer's plan.		
			P		17-781-05-2	P17.79b Does that summary indicate the assumed rate of return on OPEB assets and whether it is different from the rate used to discount the actuarial accrued liability?		GAAFR Chapter 36 - Actuarial section

			P		17-781-05-16	P17.79p Does that summary indicate recent changes, if any, in the nature of the plan, the actuarial methods used, the actuarial assumptions used, or the actuary retained?		GAAFR Chapter 36 - Actuarial section
			P		17-781-05-17	P17.79q Does that summary indicate any other specific assumptions or significant events that have a material impact on the actuarial valuation results?		GAAFR Chapter 36 - Actuarial section
			P		17-781-06	P17.80 Does the actuarial section include a schedule of active member valuation data?		GAAFR Chapter 36 - Actuarial section
			P		17-781-06-1	P17.80a Does that schedule distinguish, at a minimum, between Medicare-eligible and non-Medicare-eligible individuals? Plans with several different classifications of employees may wish to present this information separately for each group.		
			P		17-781-06-2	P17.80b If for a multiple-employer plan, does that schedule present information for the ten most recent years, regarding the number of participating employers? Presenting information for the ten most recent years is recommended. Information required by GASB Statement No. 74 should be added each year as it becomes available, until a full ten years history is available for presentation. GASB Statement No. 74 directs that legally separate employers within the same financial reporting entity be treated as a single employer for purposes of OPEB plan reporting, which marks a departure from previous practice, which had counted multiple employers within the same financial reporting entity separately. As a result, the numbers presented for fiscal years prior to the implementation of GASB Statement No. 74 may not be comparable to those presented after implementation. If so, the schedule should indicate that fact.		GAAFR Chapter 36 - Actuarial section
			P		17-781-06-3	P17.80c Does that schedule present information for the ten most recent years regarding the number of active members?		GAAFR Chapter 36 - Actuarial section
			P		17-781-06-4	P17.80d Does that schedule present information for the ten most recent years regarding annual payroll for active members? If the amount of annual payroll for this purpose differs from the amount reported as annual covered payroll or covered-employee payroll (whichever is applicable) in the financial section, the reason for the disparity should be disclosed.		GAAFR Chapter 36 - Actuarial section

			P		17-781-08	P17.81 Does the actuarial section include a schedule of the number of covered individuals? 			P		17-781-09	P17.82 Does the actuarial section include an analysis of financial experience? Single-employer and cost-sharing plans only. An "analysis of financial experience" is a gain/loss analysis of changes in the actuarial accrued liability or unfunded actuarial accrued liability that considers variances between actual experience and assumed experience for different types of risk, based on health insurance premiums, actuarial medical claim history, etc. An analysis of financial experience may not be practical for agent plans.		GAAFR Chapter 36 - Actuarial section

			P		17-781-11	P17.84 If an independent actuary performed the valuation, and another actuary performed an actuarial review or actuarial audit, does the actuarial section include an abbreviated version of that report? 			P		17-781-13	P17.86 Does the actuarial section include a Schedule of Funded Liabilities By Type ("solvency test") that provides information for each of the ten most recent years? The Schedule of Funded Liabilities By Type compares aggregate actuarial liabilities by various categories with the plan's present assets. The aggregate actuarial cost method does not identify actuarial liabilities. Accordingly, when a OPEB plan uses that method for its actuarial valuation, the solvency test is not presented.
