RE: Travel Report – Fiscal Year 2009-2010

DATE: October 29, 2010

The enclosed Travel Report for Fiscal Year 2009-2010 is provided for your information. My staff compiled the report from data recorded in the Statewide Accounting and Reporting System (STARS) and South Carolina Enterprise Information Systems (SCEIS). Agencies and institutions that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems submitted a separate accounting of their travel to us and we have also included their data in this report.

This report is intended to be used as a management tool to assist agency heads to ensure that the state's financial resources are being efficiently used. Please contact me if you have any questions about this report.

PREFACE

The Comptroller General's Office compiled this report on travel expenditures for the fiscal year ended June 30, 2010, to the extent possible, from data recorded in the Statewide Accounting and Reporting System (STARS) and South Carolina Enterprise Information Systems (SCEIS). Agencies and institutions (both referred to hereafter as "agencies") that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems, such as the state's technical colleges, state-supported universities, and certain autonomously-organized component units of the state that receive state appropriated funds, submitted their travel data to us. That data also is included in this report.

Employee job titles were obtained from the Budget and Control Board's Office of Human Resources (OHR), except for legislative and judicial agencies. Each legislative and judicial agency submitted the job titles for their employees listed in this report.

This report includes travel related expenditures paid from state, federal, and other sources by all agencies that received appropriations in the 2009-2010 Appropriations Act. Expenditures for travel costs incurred in the issuance of bonds, state-owned leased cars, and employee moving expenses are not included. Persons employed by one agency may incur travel expenditures that are appropriately charged to another agency. In these instances, the employee and the related travel is listed under the agency that paid for the travel.

This report is divided into four sections.

Section One contains a summary of in-state, out-of-state, and non-state employee travel and registration expenditures by agency. Out-of-state travel includes domestic travel outside the state as well as travel outside the borders of the United States. Non-state employee travel represents expenditures made by agencies on behalf of non-state employees for transportation, mileage, lodging, meals, and other legal charges necessary in the performance of their services while under contract with the State. This category includes registration fees and travel paid to volunteer workers. Section One lists agencies in descending order beginning with the agency that spent the most on travel.

Section Two ranks each agency by the total amount spent on in-state and out-of-state travel. This category also includes in-state and out-of-state registration fees.

Section Three ranks each agency by the combined total amount spent on in-state and out-of-state travel. For each agency, the top twenty-five employee travelers are listed in descending order according to the amount expended. For agencies with more than twenty-five employee travelers, a line-item is included to show the total travel expenditures of all other employees not listed in the top twenty-five. In instances where more than one employee incurred the same amount of travel expenditures as one of the top twenty-five, each employee is listed. Therefore, it is possible that some agencies will have more than twenty-five employees listed. Expenditures for non-state employee travel **are not** included in this section. Accordingly, an agency's rank in Section Two may differ from its rank in Section One.

Section Four contains narratives provided by each agency summarizing the type of travel incurred. Agencies are listed alphabetically.

SECTION FOUR

**Travel Summaries By Agency
In Alphabetical Order**

TRAVEL SUMMARIES

ACCIDENT FUND

All travel incurred by the State Accident Fund during the reporting period was directly related to providing essential services to or on the behalf of our policyholders. Travel expenses can be divided into four major groups. The first and largest single source of travel expenses was related to unallocated loss adjustment expenses. These activities include claim investigations, interviewing witnesses, gathering evidence, and representing our policyholders at administrative hearings. The second group consisted of underwriting expenses. Meeting with new and potential customers and conducting the annual policy audits to review payroll information and insure proper classification of employees. The third group included delivery of safety and loss control services to our policyholders to assist them in reducing the frequency and severity of their claims. The fourth group included customer relation visits, attendance by key personnel at professional conferences and seminars, employee development, delivering training services, and other required travel.

ADJUTANT GENERAL'S OFFICE

Travel in the Office of the Adjutant General is necessitated by mandated inspections, training, and seminars. Of the \$212,715.85, \$12,370 utilized State dollars, \$193,757 or 91% utilized Federal dollars with the remaining utilizing Earmarked dollars.

Army Guard Master Cooperative Agreement (MCA)

Operations and Maintenance, Environmental, Distance Learning, and ITAM expenditures were 100% federal. Most expenditures were related to National Guard Bureau (NGB) training and conferences held out of state. One Environmental employee had significant in-state travel to armories in support of the hazardous materials/waste program.

Youth Challenge

Expenditures were for employees from each of the two programs. Most travel was mandated by the NGB and received 100% federal funding vs. the normal 60/40 funding for Youth Challenge.

Emergency Management Division

Employees' travel related to radiological emergency response planning paid from earmarked funds from the State's five nuclear facilities. One is the Hurricane Program Manager whose travel is 50% federal and 50% state. The Director of EMD represents the State at the national and regional level. His travel included the National Hurricane Conference, National Emergency Management Association Conference, and in-state training events.

ADMINISTRATIVE LAW COURT

The SC Administrative Law Court only incurred in-state travel expenses. One of our Judges was reimbursed mileage to conduct his duties as an Administrative Law Judge. The Hearing Officer conducted Office of Motor Vehicle Hearings in accordance with Chapter 23 of Title I, of the Administrative Procedures Act, and rules of procedure for the OMVH. The Chief Judge's travel involved legislation affecting the Court.

AERONAUTICS DIVISION

The Division of Aeronautics incurs travel expenses in the performance of its mission to: (1) assist in the development of aviation and aviation facilities within the state, and (2) provide air transportation in support of specified state officials conducting official business. As part of fulfilling its airport development activities, Aeronautics' staff travel off-site for airport inspections, construction evaluations and meetings with local variance boards, airport commissions, city and county councils and federal and state regulatory authorities. Other travel for the airport development function includes attendance and presentations at relevant conferences and workshops. The Division's pilots incur meal and lodging expenses incidental to state officials' business trips and to attend annual flight safety training required by the Federal Aviation Administration (FAA) to maintain certification as a pilot. Staff aircraft and power plant mechanics incur travel cost biannually to attend aircraft maintenance training required by the FAA for certification in that field.

AGRICULTURE DEPARTMENT

To accomplish the mission of this agency and keep agriculture a strong industry in our state, our staff must travel extensively both in and out of state.

Many of our employees visit with major chain receivers, food service companies, food and agricultural product brokers and varieties of others involved in the food, fiber and beverage industry both in state and out of state. Any out-of-state travel was required through grants received by DAODAS, and grant/federal funds (not state funds) were used to pay for these trips.

ARCHIVES AND HISTORY DEPARTMENT

All of our employees' out-of-state travel was associated with and in support of our mission statement, which is "To preserve and promote the documentary and cultural heritage of the state of South Carolina." We accomplish this through professional records, historic preservation, education and public awareness programs as authorized by South Carolina laws enacted in 1954, 1966, 1973, 1986 and 1990.

Out of state travel expense was associated with conservation and preservation of documents and records, programs for education of SC history and for professional development and administrating for all agency programs.

Some in-state travel is for Board staff to participate in training, including highly specialized technical training necessary to the security of the state's critical infrastructure. Out-of-state travel expenses are incurred by the Surplus Property program when, acting as the one agent for the state as required by federal law, it screens federal surplus property for eventual disposition to state and local governments. Limited out-of-state travel expense is also incurred to consult with actuaries and attorneys regarding tort and property loss claims, and in FY 2010 the Comptroller General and staff of the South Carolina Energy Office incurred out of state travel expenses required for the acquisition and use of funds available through the American Recovery and Reinvestment Act of 2009. Most non-state travel supports the provision of government services through private contractors. These include travel by investigators, adjusters, law firms and actuaries for work relating to the Insurance Reserve Fund, Employee Insurance Program and Retirement Systems.

- For employees to perform jail inspections and perform other work related duties.
- For employees to attend technical training classes, particularly Education, Systems Development and maintenance training classes.
- For employees to attend professional correctional conferences to update their knowledge of professional trends and advancements.

DEAF AND THE BLIND SCHOOL

The South Carolina School for the Deaf and the Blind has a contractual relationship with most school districts across the entire state to provide certified educational resources to handicapped students in accordance with the requirements of Federal IDEA law. These contractual relationships require the agency to hire itinerant teachers who travel between districts to fulfill their duties. Since one itinerant teacher can serve the needs of several school districts, these contractual relationships keep South Carolina complainant with Federal IDEA law in the most efficient way possible. Most other travel costs list above is incurred in support of continuing professional education to keep certifications up to date.

Of the dollars spent in the travel category by the agency less than 8% come from state appropriation. The remainder of travel costs are funded by a combination of fee-for-service contracts, federal grants with travel built in as a cost component, and other restricted funds.

DENMARK TECHNICAL COLLEGE

During the 2009/2010 fiscal year, the majority of the College's travel was to meetings that require College representation, faculty travel to student clinical/work experience sites, and faculty and staff travel to regional meetings. Out of state travel was required for employees to attend meetings, conferences, and workshops that are required to obtain and maintain college and program accreditation. The majority of the travel expenditures was from Federal sources which were specifically earmarked for professional development.

The emphasis of the travel was to have representation at national conferences. The purpose of these trips is to allow employees to keep current with the nation's trends in higher education, software development and technology changes in the various academic disciplines. As stated the majority of the travel is funded by Federal sources. The Title III programs allowed for professional development which results in strengthening the institution. The increased emphasis on continuing education and recruitment of students also impacts the requirement for additional travel.

Additionally, in-state and out-of-state travel expense is incurred for professional or management staff to attend various local, regional and national conferences and training sessions. DDSN incurs out-of-state travel expense to visit exemplary disability programs in other states. The information from these visits is used to aid in the design and implementation of programs within our state. These meetings are related to current national trends and/or state-of-the-art technology for serving people with disabilities. Some meetings address particular aspects of disability. Other meetings address the management and overall policy and direction of disability agencies.

EDUCATION DEPARTMENT

The SC Department of Education (SCDE) incurs travel expenses in discharging its roles, functions and missions as defined by state law. SCDE representatives are required to attend national, regional and state meetings, conferences and workshops relating to various state and federal programs. The purpose of these activities is to obtain current information on education issues, gain awareness of the best practices in education, and facilitate collaboration in the education community. SCDE representatives are also required to perform various monitoring and auditing functions, and to provide technical assistance to schools and school districts.

In many instances, the federal government mandates attendance at conferences and/or workshops to obtain current federal guidelines, regulations, and procedures for administering federal funded education programs. South Carolina's receipt of federal education funding is contingent upon attendance at many of these activities.

EDUCATION OVERSIGHT COMMITTEE

The SC Education Oversight Committee incurs travel expenses in support of professional development for its employees in completion of assigned responsibilities (e.g. development of assessment profiles). Professional development through attendance at education policy conferences and meetings also includes travel by the state project director of the Middle Grades School State Policy Initiative (which is administered in part through the Education Oversight Committee). Other travel expenses incurred would include professional development for Education Oversight Committee staff through continuing education initiatives in support of the individual employees' primary duties. As well as, travel expenses incurred by employees, members, and employees of other state agencies who participate in Education Oversight Committee reviews and meeting in support of Education Oversight Committee duties and initiatives.

EDUCATIONAL TELEVISION COMMISSION (ETV)

Educational Television incurs travel expenditures in three main areas: (1) those related to the production of television and radio programs, (2) staff attending regional, national and international meetings of organizations and (3) travel costs for engineering and education staff working throughout the State.

During State Fiscal Year 2009-10 some of the television and radio productions that incurred travel costs included "The Big Picture", a weekly news and public affairs program, Piano Jazz, programs for the "Take on the South" series, and documentaries for the "Carolina Stories" series. ETV staff attended conferences at organizations such as the Public Broadcasting Service (PBS), National Association of Broadcasters (NAB), the International Public TV Screening Conference (INPUT) and the National Educational Telecommunications Association (NETA). Staff in the Education Division traveled throughout the state providing outreach activities and training for teachers for the Streamline, Teacherline and Ready to Learn programs. Engineering staff incurred expenses for staff development.

ELECTION COMMISSION

As the chief election agency in South Carolina, the SEC is tasked with the responsibility of overseeing the voter registration and election processes in the State. Everything that we do as an agency, our programs and our projects, emanates from these responsibilities. The primary mission and goal is to provide the highest level and quality of service possible within our statutory mandates.

Travel was essential during fiscal year 2009-10 to provide training and support to county boards of voter registration and election commissions in order to ensure counties were prepared to conduct the 2010 Statewide Primaries, Runoffs and various special elections. Travel was also necessary to educate citizens on voting related initiatives. Staff attended training and conferences to gain knowledge on election related topics and other issues affecting the agency.

Total travel figures reported for the SEC for fiscal year 2009-10 are \$37,285.10. Of the total amount reported, \$9,302.50 was actual travel for the agency. \$27,982.60 was spent to reimburse counties for county commissioner mileage, polling place technician pay, and county employee travel reimbursement for those who conducted training classes on behalf of the SEC prior to the statewide primary elections.

EMPLOYMENT AND WORKFORCE DEPARTMENT

The South Carolina Department of Employment and Workforce continue to make every effort to minimize in and out-of-state travel. However, there are numerous federal grants that our agency has secured that demand a certain amount of in and out-of-state travel as part of carrying out the responsibilities of the grant. There is also the need for our hearing officers and program coordinators to travel to effectively carry out their duties.

Additionally, there is mandatory attendance at various federally sponsored training sessions dealing with all new legislation affecting employment and workforce agencies. Also, this agency is committed to developing its staff to be as knowledgeable as possible in their area of responsibility, which sometimes involves travel to workshops and seminars. Again, we keep this to a minimum and all of these expenditures are funded by federal grants to the South Carolina Department of Employment and Workforce.

Travel also includes meeting with potential forest products industries who may be interested in South Carolina as a possible location for future plants.

Keeping abreast of other states' plans, continuing education in the forestry field, representation of forestry in South Carolina at forest industry trade shows are the primary reasons for in-state and out-of-state travel in the agency. Attendance is also

required at forest cooperatives meetings and various forestry organizations in which the agency holds membership. Travel to meetings is by automobile, official and/or private, and by plane.

GREENVILLE TECHNICAL COLLEGE

The majority of the College's travel is to meetings that require College representation, faculty travel to student clinical/work experience sites, and faculty and staff travel to regional meetings. Out of state travel is required for employees to attend meetings, conferences, and workshops that are required to obtain and maintain college and program accreditation. It should be noted that approximately 63% of college funded travel is directly attributed to instructors, deans and academic department heads. The college utilizes grant funds, whenever possible, for employee training and development. Approximately 45% of funds used for travel are from grants.

The College is expected to have representation at national conferences. The purpose of these trips is to allow employees to keep current with the nation's trends in higher education, software development and technology changes in the various academic disciplines. Another significant portion of travel is directly related to training our Financial Aid and Integrated Resource Management staff, constant training is necessary to keep them up to date on the Financial Aid regulations and

changes and upgrades to our relational database system. The majority, 94%, of the student travel was travel stipends to students paid through CCID, Trio and Upward Bound Grants.

HEALTH AND ENVIRONMENTAL CONTROL DEPARTMENT

The SC Department of Health and Environmental Control (DHEC) employees travel in the performance of their job duties for the following reasons:

For FY09-10, more than 79% of the travel money spent in DHEC was for in-state travel primarily for direct patient care, inspection, regulatory and oversight services provided to S.C. citizens. State funds paid 12.03% of the in-state travel. The \$4,367,055 spent on travel is less than 1% of the Agency's total expenditures of \$503,353,385 for this same time period.

Mileage costs are incurred by DHEC employees to inspect and regulate Community Residential Care Facilities, water and sewer systems, environmental waste sites, restaurants, septic tanks, hospitals and other medical and surgical centers, Emergency Medical Services locations, tanning facilities, and tattoo parlors.

Health care mileage is reimbursed for providing home health services, tuberculosis therapy, investigation of food borne illnesses, communicable disease investigations, disease contact tracing, rabies, disaster and medical need shelter support, and others.

Only 16% of the travel money spent in DHEC was for out-of-state travel and that is primarily for meetings and training sessions required by DHEC's numerous Federal grantors. Only 13.9% of the out-of-state travel was paid from state funds.

Employees travel out-of-state to meet with other state, regional, federal, public and industrial officials and to attend meetings of various regional and national organizations relating to specific program areas. Through communication, collaboration and the exchange of information, these meetings provide a forum to improve the consistency and effectiveness of South Carolina's regulatory and health programs. Participation is necessary to assure that South Carolina's environmental quality and health care interests and concerns are properly presented and taken into consideration. Travel is also conducted to receive training and program development guidance through organizations such as Centers for Disease Control (CDC), Environmental Protection Agency (EPA), Health Resources and Services Administration (HRSA), Department of Homeland Security, and others.

HEALTH AND HUMAN SERVICES DEPARTMENT

In-state travel expenses were incurred as part of job requirements and training. Registered nurses are required to travel to conduct client, hospital, and nursing home visits and perform assessments for home and community based services. Regional eligibility administrators are required to travel to multiple counties in their region to meet with staff and oversee administrative and program activities as well as attend monthly staff meetings in Columbia. Program staff also traveled when performing on-site compliance reviews and quality assurance reviews with providers. Additionally, employees traveled to complete training and certification requirements as well as evaluate the numerous training programs located throughout the state.

HIGHER EDUCATION COMMISSION

The Commission on Higher Education (CHE) conducts travel essential in carrying out its mission and makes every effort to limit travel to the greatest extent possible in conducting mission critical activities. The vast majority (77%) of travel undertaken by CHE employees in FY 2009-10 was associated with coordinating three federally funded programs: Gaining Early Awareness and Readiness for Undergraduate Program (Gear Up); College Access Challenge Grant (CACG); and State Approving Agency activities associated with approving academic, apprenticeship, and OJT programs for the Veterans Administration. Administering state scholarship programs and teacher training programs accounted for 12% and operations

HORRY-GEORGETOWN TECHNICAL COLLEGE

Notwithstanding fuel cost increases, a major driver of our travel costs rests in the fact that HGTC maintains three campuses in Horry and Georgetown counties. As such, travel between these sites is considered a necessary and reimbursable business expense. To that end, 5 of the top 25 travelers were professors, who commuted between our three campuses providing instruction. Moreover, 8 of the top 25 travelers, were required to travel, and were financially funded under Federal programs. The preponderance of the remaining travel costs were attributed to commutes to/from Columbia for required (mandatory) meetings and professional/training seminars.

All out-of-state-travel consists of registration fees for conferences, workshops, task force meetings, etc. that members attended in their official capacities. At these events they heard from and were guided by the knowledge of experts and the experiences from colleagues in other states. These events also allow South Carolina House members to develop networks of contacts across the country so that they may continue to effectively and efficiently cooperate with other states and learn from their experiences after the events have concluded. The Technical College of the Lowcountry (TCL) serves a four county area including Beaufort, Jasper, Colleton and Hampton counties. Situated in the low country of South Carolina, the TCL main campus is located near the center of the city of Beaufort, and is confined by the waterways and limited highway infrastructure. As a result, travel to the other campuses requires 24 miles travel one way to New River and 45 miles one way for the Hampton Campus. Health Science programs incur considerable travel expenses for instructors to visit distant clinical sites in order to monitor students. Out of state travel was primarily due to training seminars, conventions and various professional conferences attended by the faculty, administrators and deans of the College. Grant funded programs accounted for approximately 44% of the total travel expenses of the College.

The Department's executive management spends much time working with executives from these entities establishing these projects. Many of these projects include extensive technological interfaces established and maintained by the Department. As a result, employees must travel to multiple locations around the state maintaining the hardware and software needed to accomplish these interfaces.

In addition to the projects described above, the Department implemented the South Carolina Enterprise Information System (SCEIS) on November 2, 2009, to replace its legacy accounting system as mandated by the State. This requires overnight travel to various healthcare specialty group meetings. This year the director has authorized all PCF employees to volunteer to attend these meetings. The Executive Director also is authorized to attend in-state and out-of-state conference dealing with Medical Malpractice Underwriting and Claims. Finally, there is also minimal travel required that deals with miscellaneous functions of the PCF including but not limited to, the annual PCF Staff Retreat. PIEDMONT TECHNICAL COLLEGE

Piedmont Technical College has, as a part of their mission, the professional development of its faculty, staff, and administrators. As a part of an employee's annual plan, there is often the need for the individuals to attend workshops, conferences, or meetings across the state. In varying circumstances, there is a need for out-of-state travel that is required for purposes of training, accreditation, certification, or knowledge enrichment. Recognizing austere times, and the need to only promote travel that will have a direct impact, the college allocates a small percentage of the total departmental operating budget to travel. The College does have a number of Federal grants that require employees to travel, but these are completely reimbursed by the associated grant and are not a part of the departmental budget.

Travel has historically always been very limited at Piedmont Technical College due to the need for operational funds in educational budgets for items such as salaries, contractual services, and supplies. Travel funding has not been a priority at Piedmont due to the focus in funding more classroom related needs. Funding classroom needs continues to be a priority, but professional development has become an area of focus with the Strategic Plan. As part of our Strategic Plan adopted in Fiscal Year 2010, a comprehensive professional development program was established. This program provided an additional \$100,000 budget for professional development to both faculty and staff. The Strategic Direction states the following - The Ongoing Pursuit of Excellence: We will only achieve excellence through the growth, development, and nurturing of our most valuable resource, our people. All travel must be approved in advance, and any out-of-state travel requires Presidential approval and written documentation

Balancing the interests of customers and regulated companies requires Commissioners and staff who are knowledgeable and understand a constantly changing regulatory environment. Travel expenses were incurred by Commissioners and staff members to remain abreast of the myriad changes within the regulated utility industry. The Commissioners and its staff must represent the state in various out of state workshops, seminars, and meetings with national and regional organizations such as the National Association of Regulatory Utility Commission (NARUC), Southeastern Association of Regulatory Commission (SEARUC), American Gas Association (AGA), North American Electric Reliability Council (NERC) and the Federal Energy Regulatory Commission (FERC).

The Public Service Commission has travel planning and procedures in place to minimize travel expenses where possible. When possible, we seek out stipends and scholarships for educational programs.

Additionally, several trips were made to meet with representatives of federal agencies to keep them informed of South Carolina's issues and progress.

The Consortium develops and supports a balanced and integrated research, education, and extension program for South Carolina which seeks to provide for future economic opportunities, improve the social well-being of its citizens, and ensure the wise use and development of its marine and coastal natural resources. It also administers an effective and efficient communications and extension network among academia, business, government, and the general public to ensure that Consortium activities are responsive to marine and coastal users and that information generated is delivered in a useful and timely fashion. Consortium institutions provide the expertise of their respective faculty and professional staffs, as well as a wide range of facilities and equipment, necessary to carry out the diversity of programs supported by the Consortium.

The Consortium organizes its research, education, extension and management activities into eight strategic program areas. All agency employees and their job functions are tied to these goal areas so that it is truly a team effort guided by one vision and mission for each individual's effort. The Agency Head is responsible for developing program initiatives and securing non-state funding to support them, and serves on a number of professional organizations and associations in pursuit of Consortium program growth. These tasks require travel both within the state, in Washington, DC and elsewhere in the country. Agency employees attend and, in many cases, organize national, regional, state and local conferences, meetings and workshops to pursue their program responsibilities and acquire and disseminate the results of Consortium-sponsored research and education efforts. The foundation specifically grants funds for presentations at academic meetings, travel for research that will result in publications or presentations at academic meetings, and travel for faculty development so that junior faculty can attend academic meetings and further enhance their base of knowledge so that they will be better prepared to conduct research and make presentations. The academic departments have very little appropriated funds for travel; almost all the travel expenses for these 14 top travelers were paid with grant funds.
